IMPACT WEEKENDS AT A GLANCE

Impact Weekends are inspiring, relevant, and intensely practical. The training throughout the year is delivered a number of ways, this to include: interactive lectures, videos, Q&As, and small group discussions. All of this is led by some of the best leaders, pastors, and practitioners in the surrounding area.

Additionally, the relationships forged within each cohort will prove to be as vital as the skills and insights acquired. This allows leaders from the various OFN congregations to both learn from each other and aid in forming relationships that bond our congregations together that will strengthen our network for the years to come.

THE FAMILY MINISTRY COHORT

Each of our churches are only as strong as our families are and ultimately every church's longevity hinges upon its ability to train, disciple, and mobilize our students of all ages into the faith. Family ministry become the bedrock of a vibrant life giving community that is passing on the Faith to the next generation. Family ministry must move beyond child care for the kids while the adults worship and it must transcend a sentiment it is the church's job to teach the issues of the faith to our kids. What if our churches had a mindset of partnering with their parents on forming and releasing their students into the fullness of God breathed destinies: not when they got older, but right now?

Explore what a vibrant family ministry can mean and do for both the church and the neighborhood and communities around your church.
